Islamabad 🏠

SUMMARY

I have been working in the industry for almost a year, during which I have developed skills in Ruby on Rails, web development, WordPress, React, WooCommerce, and Shopify. I am passionate about creating efficient and scalable web solutions and am dedicated to delivering quality work. I would be grateful for the opportunity to contribute and grow further with your team.

PERSONAL PROJECTS

LOOMS-LEGACY (Website and Employee Dashboard)
Ruby on Rails/ HTML/ CSS/ JavaScript/ Devise/ Git & GitHub

- Rails-based application designed to manage operations of a textile company.
- Integrates key departments like production, inventory, and sales for efficient coordination and tracking.
- Deployed on AWS EC-2, leveraging modern web technologies for scalability and performance.
- Utilizes PostgreSQL for reliable and secure data management.

CHATSPHERE (Chatting Application)
Ruby on Rails/ HTML/ CSS/ Javascript/ Devise/ Git & Github

- Developed ChatSphere, a real-time chat application using Ruby on Rails.
- Includes user authentication, chat room management, and media sharing.
- Provides real-time updates on user status and activity.
- Designed for secure communication with a clean, user-friendly interface.

E-COMMERCE WEBSITE (Clothing Brand (alinzaidi))

Developed an e-commerce website using WordPress.

- Implemented a modern and responsive design with optimized user navigation.
- Integrated essential e-commerce functionalities like product listing, cart management, and checkout process.
- Customized Astra theme templates to enhance brand-specific aesthetics and user engagement.
- Utilized WordPress, Astra theme, WooCommerce plugin, and additional plugins for extended functionality and a seamless user experience.

QUICK-AND-QUALITY (Website for a UK based construction Comapny)

- Rails-based application designed to manage construction operations.
- Integrates key departments like project management, resource allocation, and client communication for efficient coordination.
- Deployed on AWS EC2, leveraging modern web technologies for scalability and performance.
- Utilizes PostgreSQL for reliable and secure data management.
